

RULE 16 – SAND & SEED

Rule 16.1 Abnormal Course Conditions (including Immovable Obstructions)

On a “cart path only” day in February, you did what any sane 18er would do, you hit towards the cart path on hole #3. It was a great shot; however you landed in the newly seeded/sanded area just short of the top of the hill. It is not marked as “ground under repair”, how do you proceed?

Rick Fowler our Golf Committee Chairperson, has notified me that over the next couple of months throughout the golf course, repairs will be made to problem areas with sand and seed. Of course we want to respect the course and allow these areas to heal. Therefore...

Pat Shaw has advised us to play these areas under RULE 16.

RULE 16.1 Abnormal Course Conditions (including Immovable Obstructions)

Notes: Find the nearest point of relief, and then take 1 club length.

(You must take full relief)

**the nearest point is not always the best point of relief.
